Non-isothermal RH = 0 gas-film comparison
a Full experimental window; partial simulations stop at their achieved times
Experiment
7.5 mm (partial)
8.0 mm (partial)
8.10 mm (complete)
Reservoir solution loss since 1 h (g)
Evaporation time (h)
b Available trajectories (zoom)
common measured end, 36 h
Reservoir solution loss since 1 h (g)
Evaporation time (h)
c Identical weighing intervals, 1-36 h
Interval-average solution loss rate (g/h)
Evaporation time (h)
